

## CASE STUDY 2025

Powering 30 Sites Nationwide

Authorised Distributors:

©hydrovane

### THE GOAL

Deliver consistent compressed air support across all UK sites - reducing downtime, improving reliability, and supporting future upgrades.

### THE SOLUTION

- National contract covering all 30 UK sites
- Dedicated team of engineers + trusted subcontractor network
- Rapid-response breakdown cover
- Planned Preventative Maintenance (PPM) across the estate
- Centralised job tracking, performance data & asset recommendations
- Brand-agnostic support (specialist in CompAir, Hydrovane, and others)

### THE IMPACT

- 30 Costco sites under contract
- 200+ service visits completed
- 43% drop in repeat faults
- Recurring issues flagged & fixed early
- Average response time: under 24 hours
- Planning upgrades strategy based on site health survey

### WHY IT WORKS

Airmech isn't just another service provider - we're a strategic partner. With boots on the ground, a national support network, and real-time fault analysis, we help sites prevent failures before they happen.

*Airmech has delivered an outstanding service making complex seem simple. Looking forward to partnering with Airmech for another year.*

### Need a National Partner?

If you manage sites across the UK, Airmech's approach delivers fast fixes, smart insights, and long-term reliability - without the stress.
